93%

STATED THEY ENTIRELY MET THEIR EXPECTATIONS ON FACILITATORS BEING ENGAGING, QUALIFIED/SKILLED AND KNOWLEDGEABLE.

## FEEDBACK FROM GPS

All the geriatricians I engaged with were clearly knowledgeable. They were generous with their time and expertise in answering my questions. They were welcoming in including me in the geriatric ward rounds and **involving me in patient discussions**. They were proactive in spending time outside of the ward rounds in topic discussion with me.

Geriatrics Scholarship July 2023

I will **more confidently assess and manage my palliative patients** and manage symptoms (particularly pain) in a more evidence-based manner.

Palliative Care Scholarship May 2024

My placement allowed me to see both sides of patient management model & the **importance of the specialist and GP working together**.

Mental Health Scholarship December 2024
